DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114 was filed in this application after appeal to the Board of Patent Appeals and Interferences, but prior to a decision on the appeal. Since this application is eligible for continued examination under 37 CFR 1.114 and the fee set forth in 37 CFR 1.17(e) has been timely paid, the appeal has been withdrawn pursuant to 37 CFR 1.114 and prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 10/31/2007 has been entered.

EXAMINER'S AMENDMENT

2. Claims 45-51, 53-60, 62-79 allowed.

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with James McEwen on 1/22/08.

The application has been amended as follows:

Claim 59. An ~~information storage~~ computer readable medium for use with a recording and/or reproducing apparatus and comprising a Cookie program which implements a method of generating a Cookie file used by the apparatus, the method comprising:

detecting an identifier of predetermined contents; and

preparing and storing the detected contents identifier in the Cookie file for use in a subsequent transmission by the apparatus to a server system providing additional information related to the predetermined contents through a network connector of the apparatus in response to the sent Cookie file,

wherein the contents identifier is an international standard recording code (ISRC) read from a recording medium.

Art Unit: 2145

Claim 60. The ~~information storage~~ computer readable medium of claim 59, wherein the method further comprises reading the contents identifier from the recording medium on which the contents are stored.

Claim 62. The ~~information storage~~ computer readable medium of claim 60, wherein the Cookie file is prepared by the apparatus and is stored on the apparatus prior to transmission, and the Cookie file includes the contents identifier read from the recording medium.

Claim 63. The ~~information storage~~ computer readable medium of claim 60, wherein the Cookie file is prepared by a browser provided in the apparatus and is stored prior to transmission, and the Cookie file includes the contents identifier read from the recording medium.

Claim 64. The ~~information storage~~ computer readable medium of claim 60, wherein the Cookie file is prepared by a browser provided in the apparatus and is stored prior to transmission, and the method further comprises transmitting the Cookie file to the server system providing the additional information through a network.

Claim 71. The ~~information storage~~ computer readable medium of claim 59, wherein the predetermined contents comprises audio and/or video predetermined contents, and the additional information includes words of a song of the audio and/or video contents, personal information items on singers of the audio and/or video contents, contents of recent activities of the audio and/or video contents, other songs of a similar genre of the audio and/or video contents, or combinations thereof.

4. The following is an examiner's statement of reasons for allowance: The BPAI held in 10/995,295, a continuation of instant application 09/903,630, that the combination of Meyer and Montulli failed to teach or fairly suggest storing a cookie that contains a content identifier read from a storage medium that contains both content and a contents identifier. Applicant's claim language in instant application 09/903,630 includes substantially the same claim language which the BPAI found allowable over the combination of Meyer and Montulli.

5. Applicant's specification states that the controller and/or the server is a general or special purpose computer on page 7, paragraph [0029]. For purposes of allowance, this is seen as a statement

Art Unit: 2145

that both the controller and the server consist of hardware, and that Applicant has not intended to claim the non-statutory embodiments of software for the terms of a reproduction apparatus, a controller, and a server system.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeffrey R. Swearingen whose telephone number is (571)272-3921. The examiner can normally be reached on M-F 8:30-5:00.
